Auditing & Certification

ESS HOLDINGS is a specialized provider of risk management and auditing solutions, providing turnkey audit solutions helping you (our client) achieve and maintain sustainable risk based SHERQ business system.

With internationally experienced auditors we provide bespoke risk based audit solutions that are aligned with the ISO 19011 standard and international audit best practice.

We offer the following audit solutions:

Quantified ISO Grading

Our Integrated HSEQ Audit protocol evaluates the effective implementation of an integrated system, measuring the organization against the requirements of ISO 45001, ISO 14001 and ISO 9001 simultaneously.

Certification Solutions

ESS Holdings is a valued business associate of BSCIC, conducts the BSCIC certification audits in Sub Saharan Africa.

Legal Audit Solutions

We offer OHS Act specific audits, HSEQ legal audits, Business Legal Audits where compliance with the statutory business regulations are also assessed.

Risk Software Solutions

We have developed our own world class software to assist in Compliance Management, Management System Documentation, Auditing and Incident Investigations, etc.

Our software is designed by experienced SHEQ auditors and consultants who knows what to expect from the software in order to gain maximum benefit from it. International Standards, Codes of Practice, World's Best Practices and National Policies and Procedures from various industries were referenced to develop the state of the art software.

The management system allows for easier:

- Document management and control
- Incident management
- Inspections and auditing
- Training Management
- Rapid incident reporting and investigation
- Risk Management
- Meeting Management

Our software is dynamic and can be easily customized for the individual needs.

Compliance Management

As part of our value added services, we provide monitoring services to help employers have healthier, more productive employees by minimizing occupational health and wellness related risk and reducing bottom-line costs, while simultaneously meeting legislative requirements. Our compliance programs include:

Health Risk Assessments

A risk assessment will be done through an inspection of the premises and work processes. This process is done jointly with Health & Safety Coordinators, Hygienists and Medical Practitioners. While performing this function, the risks will be outlined and recommendations made.

Medical Surveillance

The establishment of this program is based on the results received from the Health Risk Assessment (HRA), with the purpose being to ensure:

- Compliance to the Occupational Health and Safety Act or Mine Health and Safety Act?
- Employees are protected from acquiring an Occupational disease or injury
- The health of employees who are exposed to certain hazards such as high noise levels, hazardous chemicals etc.

The aim of medical surveillance and biological monitoring services is to ensure that employees are medically examined before they are placed in job positions, to determine on an ongoing basis the status of employee health and to determine their level of health when leaving the company.
We offer on site medical assessment with our mobile clinic.

Occupational Hygiene Compliance Surveys

We use our professional skills and specialized equipment to reliably quantify employee exposure to occupational health and hygiene work related hazards.

The main aim of occupational hygiene services is to ensure that programs are put in place that identify and evaluate health and hygiene work place hazards and recommend control measures that can be put in place to control exposure of employees to such hazards.

Training Solutions

ESS Holdings is an industry leader in the field of Occupational Health, Safety, Environmental, Food Safety, Energy Management and Business Continuity training.

All training can be facilitated on and / or off-site pending client requirements. We also offer distant study programs on our Learner Management System.

We are an accredited training provider with TETA, CETA and QCTO. We are also a DOL approved First Aid training provider. We are an accredited QCTO Examination center.

Training Formats Offered:

- On-Site training
- Class room training
- Live online facilitated training
- Distant studies
